Specifications

24/7 Customer Support

CPE (Computer Power Engineering) Division G Inc. specializes in power protection solutions since 1987. Our product line includes a variety of equipment configurations, designed to mitigate effects of poor power quality on sensitive loads. Data Processing, medical, process control and Telecom users benefit from CPE configured Power Protection Products.

CPE has several branches located throughout Canada.

Our product line includes: UPS (Uninterruptible Power Systems), Line Conditioners, Voltage Regulators, Power Line Filters, Active Harmonic Filters, Frequency Converters, Inverters, Rectifiers and Monitoring software.

We service all products we sell (third party service is also available).

A quality product together with our technical expertise will guarantee you years of trouble free operation, and minimize down time.
